

Blotting Papers

Pre-cut paper for gel to membrane electrophoretic transfers

Advansta's pre-cut **Blotting Papers** are ideal for use in transfer sandwiches and cassettes when proteins are transferred electrophoretically from a gel to a nitrocellulose, PVDF, or other membrane. The Advansta Blotting Papers are available in two sizes to work with multiple transfer setups and membrane sizes.

Advantages

- **CONVENIENT** – pre-cut to save time; sized to work with most minigel transfer assemblies
- **STANDARDIZED** – uniform thickness for reproducible transfer assembly
- **TESTED** – confirmed to perform consistently in protein transfers without introducing artifacts or background noise

Ordering Information

Catalog Number	Product		Size
L-07045-060	Pre-cut Blotting Paper	7 x 9 cm, vertical gels	60 sheets
L-07046-060	Pre-cut Blotting Paper	8 x 10 cm, vertical gels	60 sheets
